601 Carpenter Lane, Philadelphia, PA 19119

# The LaunchPad is LAUNCHING!

January 27, 2020

Dear Parents and Guardians,

We are pleased to announce that construction on our C.W. Henry Computer Lab will begin this week! All construction will take place after school & weekends. Ms. Pownall will move from classroom to classroom providing Digital Literacy Special for the duration of the construction. The district has estimated 2 months for construction.

Our school SAC and The School District of Philadelphia are working together closely to convert this space into a Multi-Media Center, called the LaunchPad. This project went through many stages over the last couple of years, and we are very excited to see this space transform into our vision!

We ask students to remember to have their earbuds or headphones in their classroom to support Ms. Pownall's curriculum. We appreciate your support through this transition and can't wait to reveal our new LaunchPad in 2020!

Thank You,

Ms. Katharine Davis, Principal  
Ms. Lauren Pownall, Digital Literacy Teacher  
Ms. Meredith Schecter, SAC LaunchPad Chair
